About the Archives of Rheumatology

Archives of Rheumatology is a peer reviewed, open access, online-only journal published by the Turkish League Against Rheumatism (TLAR).

Archives of Rheumatology is a quarterly journal that is published in English in March, June, September, December.

Abstracting and indexing

Archives of Rheumatology is covered in the following abstracting and indexing databases; Web of Science-Science Citation Index Expanded, PubMed Central, Scopus, TUBITAK ULAKBIM TR Index, Turk Medline and Türkiye Atıf Dizini, EBSCO Academic Search Premier, EBSCO Academic Search Complete, EBSCO Academic Search Alumni Edition, The Cumulative Index to Nursing and Allied Health Literature (CINAHL PLUS), Academic Onefile (GALE/CENGAGE Learning), Proquest Periodicals Index Online (PIA)

All content published in the journal is permanently archived in Portico.

Aims, Scope, and Audience

Archives of Rheumatology aims to publish studies of the highest scientific and clinical value and encourages the submission of high-quality research that advances the understanding and treatment of orthopedic and traumatic conditions.

Archives of Rheumatology covers a wide range of topics related to rheumatology, particularly in inflammatory rheumatic disorders. The journal is interested in publishing original research that addresses important clinical questions and advances the understanding and treatment of these conditions. This may include studies on rheumatology, encompassing the spectrum of diseases with arthritis, musculoskeletal conditions, autoinflammatory diseases, connective tissue disorders, osteoporosis, translational research, the latest therapies and treatment programs.

Archives of Rheumatology publishes clinical and original research articles, systematic reviews and meta-analyses, invited narrative reviews, letters to the editor and images.

The target audience of the journal includes healthcare professionals, physicians, and researchers who are interested in or working in all disciplines of rheumatology.

Open Access Policy

Archives of Rheumatology is an open access publication.

Starting on June 2025 issue, all content published in the journal is licensed under the Creative Commons Attribution (CC BY) 4.0 International License which allows third parties to read, copy and redistribute the material in any format and adapt the material for any purpose immediately upon publication by giving the appropriate credit to the original work.

The content published before June 2025 was licensed under a traditional copyright, but the archive is still available for free access.

All published content is available online, free of charge at archivesofrheumatology.org.

Copyright Policy

A Copyright Agreement and Acknowledgement of Authorship form should be submitted with all manuscripts. By signing this form, authors agree that the article, if accepted for publication by the Archives of Rheumatology will be licensed under a Creative Commons Attribution (CC BY) 4.0 International License which allows third parties to read, copy and redistribute the material in any format and adapt the material for any purpose immediately upon publication by giving the appropriate credit to the original work.

Publication Fee Policy

Effective April 9 2025, the APC for the Archives of Rheumatology will be adjusted. Below is the updated article processing charge (APC) amount:

1980 USD (VAT included) + 3% Transaction Fee (59.40 USD)

For articles where one of the authors is a member of the Turkish League Against Rheumatism (TLAR), the article processing charge is stated below:

660 USD (VAT included) + 3% Transaction Fee (19.80 USD)

For manuscripts submitted and accepted before April 9, 2025, the APC amount is based on the number of pages the article occupies in the journal. The publishing fee is €38 per page for ready to publish articles.

For example:

$38 \text{ €} \times 5 \text{ per page} = 190 \text{ Euro} + 38 \text{ Euro (20\% € VAT)} = 228.00 \text{ € [Euro]}$

$38 \text{ €} \times 10 \text{ per page} = 380 \text{ Euro} + 76 \text{ Euro (20\% € VAT)} = 456.00 \text{ € [Euro]}$

Upon acceptance of the manuscript, authors should transfer the payment to the account stated in the acceptance letter. Following the transfer, please send your receipt of payment to archrheumatol@aves-publishing.com.

Please note that all submissions are evaluated by the Editorial Board and the external reviewers in terms of scientific quality and ethical standards. APC payments do not affect the outcome of the article's evaluation or its publication priority.

There are no surcharges based on the length of an article, figures, or supplementary data for the submitted and accepted articles after April 9, 2025.

Any financial contribution or support received from third parties for a manuscript should be disclosed at the time of initial submission. Should APC be paid by a third party other than the author or the author's institution, authors must provide this information on the title page and ICMJE Disclosure Form.

APCs cover the expenses for publishing services the journal provides, including costs of peer review administration and management, professional production of articles in PDF and other formats, and dissemination of published papers in various venues and other publishing functions.

We kindly request that authors whose manuscripts have been accepted complete the Article Processing Charge (APC) payment within 90 days. Please note that until the payment is received, the publication of the article will be on hold. If the payment is not made within this period, the manuscript will be considered withdrawn. This policy helps us ensure a timely and efficient publication process.
